Software Developer

Career Objective

Motivated and detail-oriented software developer seeking opportunities to contribute to innovative projects and enhance my skills in full-stack development. Passionate about learning new technologies and solving real-world problems through code.

Education

Bachelor of Technology in Information Technology
Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore   *2019 – 2025*
CGPA: 7.6 / 10

Work Experience

NullClass Edtech Pvt Ltd   *Jan 2024 – May 2024*
Web Developer Intern

- Developed and deployed responsive web applications using React.js, Node.js, and Express.
- Built RESTful APIs, integrated databases, and implemented third-party services.
- Focused on user-friendly UI/UX and secure authentication (JWT).
- Participated in agile workflows and contributed to code reviews and documentation.

Projects

Twitter Clone – Real-time Web App
React.js, Node.js, MongoDB
Built a Twitter-like application with real-time post updates and a scalable backend architecture.

Tesla Landing Page Clone
React, Redux
Designed a visually appealing Tesla landing page with Redux-based state management for interactive UI.

Social Media Platform
MERN Stack, Redux, Formik, JWT, Multer
Developed a full-featured platform for user profiles, image uploads, and secure authentication with JSON Web Tokens.

Spotify Clone
React, Redux, Spotify API, Node.js, Express
Created a Spotify clone that enables users to search tracks, create playlists, and log in using OAuth. Handled real-time data using Spotify API.
